# Subject index

adverse incidents
  review of clinical risk management 131
  adverse incident audit 61
assessment
  accessing residential care 9, 13 (Commentary)
audit
  adverse incident audit 61
  audit of colposcopy services in a district hospital 22, 25 (Commentary)
  audit of gastroscopy and sedation 26
  clinical governance and external audit 30
  diabetes in Tongans 17, 21 (Commentary)
audit committee
  clinical governance and external audit 30
Australia
  complaints about hospital care 109

best practice
  facilitating best practice 157
business
  quality assessment in private practice 118

carer needs
  recovery after stroke 120
chest X-ray
  routine chest X-rays for university students 154
children
  rational prescribing for childhood pneumonia 86
client
  'patients' versus 'clients' 14, 16 (Commentary)
clinical audit
  use of clinical audit for revalidation 71, 74 (Commentary)
clinical governance
  clinical governance and external audit 30
clinical indicator
  outcome after severe trauma 66
  quality management and the Emergency Services Enhancement Program 80
clinical pathway
  clinical pathways for acute paediatric illness 50
clinical pharmacy
  analysis of clinical pharmacy interventions 99
clinical practice improvement
  facilitating best practice 157
clinical quality
  clinical governance and external audit 30
colposcopy
  audit of colposcopy services in a district hospital 22, 25 (Commentary)
communication
  a review of discharge summaries 104
  discharge communication with general practitioners 69
community pneumonia
  rational prescribing for childhood pneumonia 86
consumer participation
  managing consumer participation 37
consumer partnerships
  managing consumer participation 37
control charts
  monitoring hospital infections 112
core values
  quality management approach 43 (ACHS Quality Awards 2000)
cost-effective care
  improving the quality of heath care 34
critical illness
  outcome after severe trauma 66
critical level
  phenomenon of quality and health care 40, 92 (Letter to the Editor)
customer
  'patients' versus 'clients' 14, 16 (Commentary)

data validation
  use of clinical audit for revalidation 71, 74 (Commentary)
day surgery
  recovery following laparoscopic cholecystectomy 2, 8 (Commentary)
diabetes
  diabetes in Tongans 17, 21 (Commentary)
diabetic foot care
  diabetes in Tongans 17, 21 (Commentary)
discharge outcome
  hospital stay and discharge outcomes after knee arthroplasty 56
discharge summaries
  a review of discharge summaries 104
  discharge communication with general practitioners 69
discharge
  clinical pathways for acute paediatric illness 50
district hospital
  audit of colposcopy services in a district hospital 22, 25 (Commentary)
drug-related problems
  analysis of clinical pharmacy interventions 99

education
  recovery after stroke 120
elderly
  accessing residential care 9, 13 (Commentary)
emergency
  clinical pathways for acute paediatric illness 50
  quality management and the Emergency Services Enhancement Program 80

endoscopy
audit of gastroscopy and sedation 26
enhanced dissemination strategies
facilitating best practice 157
evidence-based medicine
evidence-based medicine in a children's hospital 126
facilitating best practice 157
frameworks
prioritising quality 160

general practitioners
a review of discharge summaries 104
discharge communication with general practitioners 69

health care utilization
postnatal depression and health-care use 144
health-care quality
improving the quality of heath care 34
phenomenon of quality and health care 40, 92 (Letter to the Editor)
health-care worker–patient relationship
'patients' versus 'clients' 14, 16 (Commentary)
*Helicobacter pylori*
peptic ulcer disease management 76
hip replacement
preventing wound infections 149
hospital discharge
a review of discharge summaries 104
hospital stay length
improving the quality of heath care 34
hospitalization
accessing residential care 9, 13 (Commentary)

iatrogenic error
review of clinical risk management 131
infection management
monitoring hospital infections 112
information retrieval
evidence-based medicine in a children's hospital 126
information transfer
a review of discharge summaries 104
intervention rates
improving the quality of heath care 34
interventions
analysis of clinical pharmacy interventions 99

knee arthroplasty
hospital stay and discharge outcomes after knee arthroplasty 56
knee replacement
preventing wound infections 149
laparoscopic cholecystectomy
recovery following laparoscopic cholecystectomy 2, 8 (Commentary)

length of stay
hospital stay and discharge outcomes after knee arthroplasty 56
linking quantitative and qualitative methods
health services and early postpartum discharge 135

maternal and infant outcomes
health services and early postpartum discharge 135
maternity services
health services and early postpartum discharge 135

New Zealand
diabetes in Tongans 17, 21 (Commentary)
non-English-speaking background
health services and early postpartum discharge 135

organisational culture
quality management approach 43 (ACHS Quality Awards 2000)
outcome
clinical pathways for acute paediatric illness 50
recovery following laparoscopic cholecystectomy 2, 8 (Commentary)

paediatrics
clinical pathways for acute paediatric illness 50
evidence-based medicine in a children's hospital 126
patient complaints
complaints about hospital care 109
patient perceptions
health services and early postpartum discharge 135
patient safety
prioritising quality 160
review of clinical risk management 131
patient satisfaction
postnatal depression and health-care use 144
patients' views
recovery following laparoscopic cholecystectomy 2, 8 (Commentary)
peptic ulcer
peptic ulcer disease management 76
Pharmaceutical Benefits Scheme
aspects of the Pharmaceutical Benefits Scheme 89
pharmacotherapy
aspects of the Pharmaceutical Benefits Scheme 89
physicians
adverse incident audit 61
placement
accessing residential care 9, 13 (Commentary)

postnatal care
  postnatal depression and health-care use 144
postnatal depression
  postnatal depression and health-care use 144
postpartum discharge
  health services and early postpartum discharge 135
prescribing
  rational prescribing for childhood pneumonia 86
priority setting
  prioritising quality 160
private practice
  quality assessment in private practice 118
prostheses
  preventing wound infections 149
public health screening
  routine chest X-rays for university students 154

quality
  prioritising quality 160
  quality management and the Emergency Services Enhancement Program 80
quality assessment
  quality assessment in private practice 118
quality assurance
  discharge communication with general practitioners 69
quality audit
  a review of discharge summaries 104
quality improvement
  complaints about hospital care 109
  monitoring hospital infections 112
  facilitating best practice 157
quality management
  preventing wound infections 149
  quality management approach 43 (ACHS Quality Awards 2000)
  quality management and the Emergency Services Enhancement Program 80
quality service
  quality management approach 43 (ACHS Quality Awards 2000)

residential care
  accessing residential care 9, 13 (Commentary)
revalidation
  use of clinical audit for revalidation 71, 74 (Commentary)

sedation
  audit of gastroscopy and sedation 26
self-reported audit
  adverse incident audit 61
service delivery
  quality assessment in private practice 118
specialist
  quality assessment in private practice 118
standards
  audit of colposcopy services in a district hospital 22, 25 (Commentary)
statistical process control
  monitoring hospital infections 112
stroke rehabilitation
  recovery after stroke 120
stroke survivor
  recovery after stroke 120
stroke
  recovery after stroke 120
students
  routine chest X-rays for university students 154
surgery
  recovery following laparoscopic cholecystectomy 2, 8 (Commentary)
surveillance
  monitoring hospital infections 112
survival
  outcome after severe trauma 66

tipping point
  phenomenon of quality and health care 40, 92 (Letter to the Editor)
Tonga
  diabetes in Tongans 17, 21 (Commentary)
trauma
  outcome after severe trauma 66
Trinidad
  'patients' versus 'clients' 14, 16 (Commentary)
tuberculosis
  routine chest X-rays for university students 154

university
  routine chest X-rays for university students 154

wound infection
  preventing wound infections 149
